××	The information on railroad shipments in the second half of July 1949 confirms that some component units (artillery or rocket launcher units) of the 12th Gds Tank Div participated in the	,
	field exercises in the Werder-Markendorf area. Component units of the 9ty Mecz Div (Cadre) have also been observed in	50X1-HUM
	this training area since mid-July 1949.	50X1-HUM
Ø	Deadlines for the evacuation from Germany of Soviet dependents were previously reported As these deadlines were never observed, it is believed that they were issued individually rather than on a general basis, and applied	50X1-HUM
	only to one family	50X1-HUM
	the unit was confirmed in Jueterbog-Altes-	
	253rd Airdrome Bn. unit was confirmed in Jueterbog-Altes- Lager until 5 August 1949.
